SUBJECT ANALYSIS

ELA

Skills

Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.

SCIENCE

Earth's Resources

Skills

Using scientific data, debate the societal advantages and disadvantages of technological advancements in renewable energy sources.

Using an engineering design process, develop a system to capture and distribute thermal energy that makes renewable energy more readily available and reduces human impact on the environment (e.g., building solar water heaters, conserving home energy).
